

Feet Express 100 and 120

Height adjustment „at the touch of a button“

The "Express" feet have been developed by moll for the quick adjustment of any height on a purely mechanical basis (in 1 second appr. 40 cm).

In order to ensure that the Express height adjustment remains functional and comfortable to use, the maximum additional load (weight of additions used and equipment in/on the desk) is limited to **40 kg**.

Important:
only additions that do not require a supporting foot can be used to extend the table.

Express 100 feet:

Desk height	from 63 - 100 cm
for body height* seated:	from 133 - 210 cm
for body height* standing:	to 165 cm

Express 120 feet:

Desk height	from 73 - 121 cm
for body height* seated:	from 157 - 210 cm
for body height* standing:	to 200 cm

* Figures shown here are recommendations.

The correct desk height needs to be set individually.

Locking lever

Spring tension control

Only for Additions without supporting foot
